

CUSTOM RATES SURVEY

GRAIN HARVESTING OPERATIONS

1988

Alberta
AGRICULTURE
STATISTICS BRANCH
427-4011

89-01499/

PREFACE

The Custom Rate Survey is conducted for Alberta Agriculture as a cooperative effort involving the Department Statistics Branch, Farm Business Management Branch and Uniform.

The data presented in this report was obtained by contacting custom operators and dealers and thus represent actual charges.

Please note that some instances may be CNR (Good Neighbor Rates) as opposed to CR (Commercial Rates). The reader should be aware that varying conditions in different areas of the province can significantly affect the rates charged.

The intent of the survey is to provide producers with additional information to help with their farm management decisions. The quality of data is dependent on the cooperation received by producers as well as commercial custom operators. We would like to thank all those who were so willing in helping to provide information. If you are involved in any custom operations and have not been contacted but wish to contribute please call the following numbers or contact your local District Agriculturist.
